Increase the longevity of your pump and reduce your total cost of ownership!

Stainless Pumps

- Pump is interchangeable with 2196 ANSI, 2196R, 2196LF ANSI and 2796 utilizing Stainless Steel on all drive and wet end components.
- Advanced thermal fatigue resistance when environment is subject to high and low temperature extremes.
- 2196 Forever Frame's™ product life cycle is extended in most applications. Making it more economical in permanent applications versus the standard cast iron frame.
- Fasteners, plugs, sight glass and frame's foot are all stainless steel!

Stainless Powerends and Shaft Kits

- Interchangeable with your existing 2196 ANSI 2196LF ANSI, 2196R and 2796 Powerends
- High quality SKF® bearings
- Thermal expansion rates are similar to the bearings which allows for reduced stress during startup and shutdown.
- Higher heat capacity gives the Forever Frame™ excellent use in high temperature applications and environments.

Applications

- Corrosive Services
 - Acid & Caustics
 - Pharmaceutical
 - Polymers
 - Solvents
 - Food & Beverage
 - Hot Oils
 - Chemical/Petrochemical Processing
- Pulp & Paper
